

Freight Brokerage Services - LTL, FTL, Specialized & Intermodal

Primary Logistics' domestic trucking services programs cover virtually all types of equipment and related services coast to coast.

Whether you require local, regional or national LTL service, dedicated FTL coverage, intermodal units, temperature-controlled trailers or specialized equipment we have the established resources, service contracts, flexibility and time-definite programs at your disposal

We tailor custom solutions to support your specific customer deliveries commitments.

Because we are non-asset based and move domestic freight all over the U.S., Canada and Mexico, Primary Logistics Services is not tied to asset or driver availability.

We maintain alliances with carefully selected LTL, FTL, Specialized and Intermodal partners, assuring equipment availability, flexibility and competitive pricing linked to time-definite door to door cycles.

Features and Benefits

Combined with our comprehensive 3PL services including drayage, warehousing and distribution, fulfillment, pick and pack and other customer-driven value-added services, Primary Logistics offers:

- ✓ **Enhanced flexibility** – short-notice requests for equipment and drivers
- ✓ **Proven reliability** – documents track record
- ✓ **Immediate quotes** using our user-friendly TMS for LTL service options
- ✓ **Total control at your finger-tips** – our web-based system is linked to our carrier partners' own track & trace tools allowing you real-time shipment status
- ✓ **Your account appointed Customer Service Representative** is briefed, trained and kept up to date with your specific SOP, unique needs, expectations and objectives. A true extension to your own Customer Service and Logistics Services Teams.
- ✓ **Leverage our comprehensive capabilities** to maximize logistics and transportation costs savings
