

Order Consolidation Services

Importing from various offshore origins? We have the infrastructure to consolidate your in-bound shipments for local, regional and national dispatch and deliveries.

Do you have multi-supplier locations feeding cargo into Southern or Northern California for export? Primary Logistics Services is equipped to receive goods via LTL, FTL, flatbeds, intermodal and rail means. We load your orders into pre-booked ocean freight containers and transport them to the assigned port in strict accordance with your schedule.

A large water bottling company depends on our services to recover their ocean freight containers reaching local ports on a weekly basis. We deconsolidate, store and distribute their products according to their specific Special Operations Procedures, as a direct extension to their own logistics Team.

These are but a few of the value-added services we offer our export and import. Complimented by our drayage, warehousing, distribution and transportation services, our Consolidation Services are designed with flexibility and dependability in mind.

Features and Benefits

Visibility from arrival to your customers' shelves. Complimented by our sophisticated web-based TMS tool, we offer you 24/7 access to your inventory, allowing you the ability to quickly flex with the fluid needs of your customers.

Single billing for services rendered. We combine all services extended on a unique detailed invoice, integrating port operations, warehousing, distribution and door deliveries. We even blend charges for multi-service functions provided - thereby allowing you additional saving over logistics costs and an easy audit for payment process.

Reduce if not eliminate retail bill-backs. We are in tune with most national store chains, their routing requirements, service expectations and delivery needs. As such, we minimize your exposure to charge backs and returned shipments.

We are with you every step of the way. A single point of contact with an equivalent trained associate as back-up cares for you, your vendors and customers. No voice-mail clutter. Your assigned Customer Service Representative is a direct extension to your own team. Speaking the same language, understanding your specific expectations and delivering on our commitment to consistently offer prompt, clear and pro-active communications ... backed-up by nimble yet disciplined service standards.
