

Transloading Services

Primary Logistics' transload programs are geared to safely and economically cater to containerized, intermodal and FTL cargoes of all types.

Whether the receiving function entails a 53' intermodal unit, a 40' ocean freight container or full truck load, we have the infrastructure to quickly and efficiently transload your cargo. Pictures are taken as your shipment is off-loaded and loaded to document the process.

Ocean freight containers are recovered at the local Port terminals, transported to our facility, off-loaded, the packaging method and condition inspected and photos taken to document the transaction.

Pending shipping instructions, your goods are then inventoried or your customers' orders are immediately fulfilled for delivery by LTL, FTL or intermodal means according to your directives.

Incoming FTL or intermodal shipments are processed in the same fashion - assuring speedy and efficient transload for export or local distribution and deliveries, as applicable.

- ❖ A **leading water filtration group based in Australia**, channels their U.S. supplier orders via LTL and FTL means into our 3PL facility, allowing us to load the export orders into dedicated ocean freight containers for dispatch to this overseas customer.
- ❖ A **well-known furniture** designer imports high-end home and office furnishings reaching the U.S. west coast in ocean freight containers. The products are offloaded, staged for domestic on-forwarding and transloaded onto 53' over the road trailers for delivery to various distribution centers coast to coast.

Features and Benefits

Combined with our comprehensive 3PL services including fulfillment, pick and pack and other customer-driven services, Primary Logistics offers:

- ✓ **Reduce handling costs** by taking advantage of a single facility for all service functions
- ✓ A **dedicated Customer Service Representative** services your account, coordinating all aspects – every step of the way.
- ✓ Reduce, if not **eliminate, freight damage**
- ✓ **Single point of contact** from order placement to ultimate delivery
- ✓ **Multiple regional locations** to serve you coast to coast
- ✓ **Streamline your supply chain**
- ✓ **Leverage our comprehensive capabilities** including drayage, warehouse, distribution and transportation services
